

20<sup>th</sup> January 2017

Hello!

It has been another busy week in Robins – the days just fly by!

A big thank you to everyone who has requested parents' evening appointments – I will send out times at the beginning of next week. Don't worry if you haven't got your form back yet – just pop it in your child's home school book on Monday morning! If you can't make it this time, then I will give you a call to discuss progress etc.

In other news, I have been asked to pass on to you that we raised £78.06 for The Children's Society through our Christingle services. And we also raised £89.49 for Children in Need, which is absolutely fantastic – a big well done and thank you to you all!

As part of our topic celebrations we are busy planning a special curriculum day, which will take place on February 9<sup>th</sup>. It will focus on the curriculum areas of Maths and Design Technology. We are mixing the children into different groups mixed across lower school and they will focus solely upon activities with cross curricular links to Maths and DT. It is going to be a lot of fun – there are some really lovely things being planned. It will be a lovely way to end the term.

But back to the here and now! We made some delicious smoothies this week. All the children had a try at chopping strawberries and bananas, either independently or hand over hand. We then popped all our choppings into the blender with some Greek yoghurt with honey and then we used a big yellow switch to whizz it all up. It looked amazing and it tasted amazing and it was full of vitamins and minerals! De-licious! Give it a try together at home!

Have a wonderful weekend!

Rachel
