

Toucan's

Forest Schools

This week the students did activities thinking about the sense of smell. They collected petals and herbs and added water to make magic potions. To finish they had a fun activity carrying water around a course. Once again it was great to be outside and working with the Peacocks.

In Science we have been finding out about Electricity. Today we explored making things work using electricity. First of all we sorted pictures of gadgets that do/don't use electricity. Then we made a smoothie, played with remote controlled cars and electronic keyboards. It was a great time of exploration and lots of fun as well.

Electricity

Notices:

May: Thurs 18th: Forest School. Please wear old clothes, wellies and a coat.

Friday 26th: End of term

Also this week:

In Geography: We walked to Trowbridge Market. In PSHE we were sorted ourselves into boy/girl, male/female. In maths we used balance scales. In Literacy we tried to talk in the voices of the animals from our story.

In RE: we talked about ways we can help each other.

Class Fund this term: £2.50 *We will use this to subsidise activities.*
