

Owls Visited the Library today!

What an amazing local facility for us to use and enjoy!

A light, large café space offering drinks and snacks and a restaurant area that offered breakfast from 8:30 until 10am where we were able to purchase toast today but also had a variety of items on sale from the breakfast menu which you could chose separately in order to devise your own favourite breakfast.

The library staff were very welcoming and I hope to visit for a structured activity very soon. I am now in touch with the librarian to facilitate this.

I believe that there are story sessions on a Saturday and as the environment is very inclusive I wanted to make everyone aware of this fact so you can use the facilities as a family maybe?

There is a completely accessible bathroom facility with a changing bed and overhead hoist.
