

## Parrots 5<sup>th</sup> session "Feeling Comfortable"

The session began with the "Owl Babies" story, the students were able to be part of the story with their furry owl toys. After the story the main activity was making a nest for their owl baby using an assortment of feathers, hay, leaves, fleece and twigs on offer. We had to retreat into the Viking hut, our own nest, as the rain was getting heavier! With the nests made it was time for free choice and once again sand and water were the favourites. To end the session the students had their drink and identified what part of the session they enjoyed the most.
