## Lego Therapy

This week we all took part in a lego therapy session in groups of 3. Each person had a role; Engineer, Supplier or Builder. Only the Engineer was shown a model to build. They then had to describe each piece and where to put it. The Supplier then gave it to the Builder to construct. It was a great exercise in speaking, listening and working together as a team.

## This week:

**DT:** We made Savoury Flapjacks as part of our focus on healthy eating. They had oats, cheese, carrots, seeds and herbs. They all enjoyed making them and most liked eating them too. In each cooking session we all read the recipe to find equipment, ingredients and make the food.

**Literacy/Geography:** Our new story is *Handa's Surprise*. This is going to be a springboard to find out about life in Kenya. We will think of what we would like to ask Immy (TA in Swans) about life in Kenya.

All of the students are progressing very well in their reading. We are very grateful for any practice you do at home. Please feel free to write in the reading record book.

## Notices:
