

8th July 2016

Hello!

We have been super busy again this week – it's all go in Robins Class!

On Monday, we joined forces with Toucans Class and went for a relaxing ride on a canal barge. It was really lovely. And Toucans Class made it even lovelier by bringing biscuits and chocolate doughnuts for a boat picnic -Yum! The children behaved themselves beautifully and enjoyed watching the world drift by!

Before we went sailing off down the canal, we asked the children what they thought they might see on the trip. Here is the list they compiled:

1. A crocodile
2. An octopus with 1,000 legs
3. Ducks

And I am happy to say, we definitely saw one of the items on their list!

We have been thinking about people who help us – this week we became firefighters. We found out about some of the things that firefighters do and then we dressed up and went out and about in the school finding 'fires' that needed putting out! It was great fun – and we even rescued a cat from a tree!

We also jetted off to Australia yesterday, to find out what they eat Down Under – and it seems that they eat a lot of Vegemite. So we made cheese and Vegemite pastry wheels... except we had to use Marmite because I couldn't find Vegemite in Sainsbury's! But they still turned out to be really delicious!

You should receive your child's school report today along with notification of their class for next year. There is a Parents' Evening on Tuesday 19th July in order to discuss your child's report and/or to meet your child's new teacher. But please do get in touch before then if you have any questions or concerns – don't feel that you have to wait for Parents' Evening!

This time of year always makes the Robins team a bit sad as we don't really want to share our lovely little Robins with anyone else, ever... but share we must. And we absolutely know that they are flying off to wonderful new nests where all sorts of exciting adventures await them. Plus, I have a feeling that we'll still be seeing lots of them!

Have a wonderful weekend!

Rachel
