Parrots Class Newsletter 05.05.17

Hello to all,

This week has been short but good in Parrots class. We got straight into work on Wednesday and have got a lot done in the time we have had. I have been very pleased with the efforts of the class. With a short week and a short term we have to get a lot of work covered but they have all really focussed well this week.

Science

We have continued our work on light and dark this week. We looked at the meanings of the words transparent, translucent and opaque. All pupils were able to notice a difference between objects from each category and how they react with light. We will be building on this work next week.

Parent's Evening

Just a reminder that next week is Parent's evening. I will be in class on Tuesday 9th May after school to catch up with anyone who wants to come in. Anyone who is unable to attend just let me know and I will call you whenever I can. The sessions are to discuss IEP targets and progress. If you are unable to attend I will send a copy of the new IEP home.

Handwriting, phonics, fine motor skills.

Within class this term we are having a large focus on handwriting and pre writing skills. There are going to be two handwriting groups running on Thursdays and Fridays where pupils can work on developing their ability in a range of ways.

Cricket

We are continuing our work with Mas the cricket coach and pupils are doing really well with him. He runs two different ability groups each week on Wednesday mornings and the development of the pupils within these groups has been impressive already. I will take lots of photos next week and send them all home.

Have a great weekend.

Best wishes
Alistair Moger
