

Parrots 3rd session "Living Things"

The group started the session by briefly finding out what happens in the story "We're going on a Bear Hunt" they then acted out the story using the props on offer with picture cards to help them with the sequence and actions. After the story they were given an "Insect" identification card and a tray of soil to explore. They were supported to look for insects and helped to catch them in the petri dishes where they could look at them using magnifying glasses. Most of the students enjoyed handling the worms and they were fascinated by the snail that came out of his shell when water was sprayed on him. Free time activities were sand, water, soil and garden/insect toys. During drink time the students named their favourite part of the session.

- We're going on a bear hunt, through the . . .

long grass

river

forest

snowstorm

cave

the bear!
