This was Wrens 3rd Forest School Session "Living Things"

The group started the session by sitting in the Viking hut (as it was raining) to find out what happens in the story "We're going on a Bear Hunt" they then acted out the story using the props on offer. After the story they looked for mini-beasts in the soil in the raised bed. Each of them had a pictorial card to help them identify what they had found. Most of the insects found in this session were worms with just a few woodlice, a centipede and a slug.

We're going on a bear hunt, through the . . .

long grass

river

mud

forest

snowstorm

into the cave to find . . . . the bear!

Looking for mini-beasts
